“It doesn’t matter the first time I saw him. Before I saw him I was making him up, the last time I saw him he said he’d be back he said I should wait. And I did, I do, because he said I should. But I can’t anymore, I won’t.” This is the moment in the show where Wendy decides she is done waiting for other people to make her happy, it is time to be happy for herself.

*Makenzie Zundel Wendy Darling*

“And i was afraid, afraid of  
what else i was capable of  
forgetting”

*Shan Robinson Girl Chorus*

This show has been such a wonderful experience. I have loved the growth I have been able to experience with my cast and all the memories we made together. My favorite quote from the show is "I wanted him to see that there was a world inside me too, but he always liked the stories about himself best" I love the way this show redefines Peter Pan and Wendy Darling and what they mean to each other.

*Becca Thornley Girl Chorus*

"I stated to forget the way my mother smelled. And I was afraid, afraid of what else I was capable of forgetting." There are so many beautiful memories and moments that we forget and we tend to only remember the hard parts of life. I hope to be more like Wendy when I start forgetting the good things. I will refuse to let them go.

*Paige Iverson Girl Chorus*

My favorite quote is "it hurts to remember but hurts more to forget, but if you forget how do you know if it hurts? you don't. because you forgot. memories are all we have to fill us up inside. when we forget, we empty out" i love this quote because it has always stuck out to me. when we do forget we don't realize what we have lost. but we have grown from it. and the memories we do remember are the ones worth remembering.

*Olivia Powell Girl Chorus*

“It might feel worse before it feels better, but it will feel better.”

Sometimes we feel like when bad things happen that we will feel bad for forever! But we will feel better if you want to feel better. With help and guidance we can get through anything!

*Emily Daugherty Girl Chorus*

"Things aren't always tied up neatly in this life." It would be foolish of us to go through life expecting everything to be perfect because we're human and perfection is a goal we'll never reach. We have to be realistic and accept that not everything will turn out great right now.

*Emily Burgan Mother*

"Sometimes we move on in  
life without closure."

*Emily Bingham Detective*

“Why does everyone always have to be happy? Since when did that become the goal? Maybe I don’t like being happy, I don’t trust it.”

It’s hard to match the energy of people around you when you’re in a bad mood. everyone apologizes for crying or feeling down when we need to accept that that is a feeling that will always be with us. I believe we are always sad and made happy rather than always happy and made sad, and that feeling is always with us.

*Parker Smith Peter Pan*

“I think we’re all scared all the time, every time I look at you, I’m terrified. Those are big scary feelings to feel, but I feel them.”

We all have hidden emotions, whether they are good, bad, or neutral. Sometimes though, hiding those emotions does more hurt than harm, either to you or the people around you. We also suppress or avoid other emotions, and those are just as important to feel and accept as who you are, so then we can learn and grow from them.

*Ethan Reeder Lost Boy*

"People cry.  
Life is hard."

*Jett Johnson Lost Boy*

“It’s ok to go slow at first but you have to start somewhere” I like this because I think we need others to help push us but ultimately it’s up to us to finish climbing that mountain that’s life and sometimes it’s hard for us to keep pushing but if we keep climbing and pushing through we’ll be able to see the victory waiting for us but it takes steps

*Cooper Hartman Lost Boy*

" if you take some from different people, you can put them all together! And after a while it makes something new, it's kind of nice. You cant get back what you give, but you keep giving, you keep taking. And then you make something new! So other people can take from that and make something new, too"

I love my quote because it shows that you can't hold on to one thing and that there's always going to be something else out there for you.

*Ben Johnson Lost Boy*

"I liked flying the best, but not for the reasons you'd think. I didn't like going up. I liked coming down. The certainty of the ground." I love this quote because it shows that things aren't always how you think they'll be and you might enjoy the unexpected things in life.

*McKay Lee Therapist*

"Sometimes we move on in life without closure."

I like this quote because while it is sad, it is a realistic fact of life. Nevertheless, we still move on. and we are better off because of it.

*Drew Burton Doctor*

"I wanted him to see there is a world inside me, too. A world that had nothing to do with him."

*Rhees Hancock Tech*

"I liked flying the best, but not for the reasons you'd think. I didn't like going up. I liked coming down. The certainty of the ground."

*Tabi LeDuc Tech*

*Melanie Day  
Director*

We are so proud of this group of kids. Rehearsing for this project while involved in other productions with the complications of covid has been a challenge. We recognize the long hours of extended rehearsal and many sacrifices from our cast and their families. We hope this experience was as rewarding for the cast as it was for us as directors.

*Ashley Patterson  
Director*

Cast: Thank you for your trust, your passion, being vulnerable and choosing to join this team.

Parents: Thank you for sharing these incredible kids with us. We appreciate you allowing them to come on this journey.
